CHITY GROUP

Project Overview

The CHITY GROUP brand package at a glance

1. The brand in brief

CHITY GROUP is a diversified parent company that creates, builds, owns, supports and grows businesses across sectors. The brand expresses one idea: build strong businesses, connect them through shared strength, and create lasting value.

ELEMENT	SUMMARY
Promise	CHITY GROUP builds with purpose, operates with discipline, and grows for the long term.
Positioning	More ambitious than a traditional holding company; more structured and credible than a loose collection of start-ups.
Architecture	Endorsed: independent operating businesses, endorsed where useful by "A Chity Group Company".
Logo	The C symbol with the CHITY GROUP wordmark and the tagline BUILD • GROW • LAST, in stacked and horizontal forms.
Color	Deep Navy #0B1220 and Cloud White #F7F8FA as the base; Royal Blue #1E6BFF and Sky Blue #5AB8FF as accents; Slate Gray #6B7280 as the neutral.
Typography	Montserrat for headlines; Inter for body text, labels and interfaces; Arial as the fallback.
Graphic signature	The brand curve, rounded containers and six linear pillar icons.
Imagery	People, structures, nature and abstract light, balanced so no sector dominates.

2. What the package contains

The brand package is organized in ten numbered folders. The Asset Index lists every file.

FOLDER	CONTENTS
00_README	This overview and the Asset Index.
01_STRATEGY	Brand Foundation, Brand Strategy and Brand Architecture.
02_LOGO	The Logo System and every logo file as SVG, PNG and PDF, with the app icon, favicon and endorsement line.
03_COLOR	Color Specifications and the design tokens file.
04_TYPOGRAPHY	Typography and Licensing, the font files with their licenses, and web fonts.
05_GRAPHIC_ASSETS	Graphic Language, the six pillar icons and the brand curve.
06_IMAGERY	The Imagery document.
07_APPLICATIONS	The Applications document.
08_TEMPLATES	Presentation, letterhead, business card, email signature and social media templates.
09_GUIDELINES	The Brand Guidelines and Brand Usage and Governance.

3. Where to start

IF YOU ARE	START WITH	THEN USE
Leadership or the Brand Owner	Brand Guidelines; Brand Usage and Governance	Brand Architecture; Brand Strategy
Marketing and communications	Brand Guidelines; Brand Strategy	Applications; the templates in 08_TEMPLATES
A designer or agency	Logo System; Color Specifications; Typography and Licensing	Graphic Language; Imagery; the logo SVG files; the font files
A web developer	The design tokens file; the web section of Typography and Licensing	Graphic Language; the SVG logos and favicon files
A printer or vendor	Color Specifications (print and Appendix A); the logo PDF files	Applications; the Logo System
Any employee	Brand Guidelines	The presentation, letterhead and email signature templates

4. The essentials

- Use only the supplied logo files. Never alter, retype or recolor the logo.
- Keep clear space of X (the height of the C) around every logo, and respect the minimum sizes.
- Use Deep Navy or Cloud White as the base. Never place text on the gradient.
- Use Montserrat for headlines and Inter for everything else. Use Arial in email.
- Use at most one brand curve in a layout, and keep text off it.
- Write the name in capitals: CHITY GROUP.
- Start from the supplied templates.
- Send anything outside the templates to the Brand Owner for review.

5. Questions and changes

The Brand Owner, the person or team designated by group leadership, answers questions about the brand, approves new uses and issues updates. Direct all requests for changes to the logo, palette, fonts or guidelines to the Brand Owner.
