CHITY GROUP

Brand Guidelines

How CHITY GROUP looks, sounds and behaves.

CONTENTS

Brand Guidelines

These guidelines explain how CHITY GROUP looks, sounds and behaves, and how to use the brand consistently. They summarize the full brand documents; each section names the document that holds the detail.

How to use this book. Read the Our brand section first, then go to the section you need. Use the supplied logo files, templates and fonts: never rebuild them. When in doubt, contact the Brand Owner.

OUR BRAND

A parent company that builds businesses to last

CHITY GROUP is a diversified parent company that creates, builds, owns, supports and grows businesses across sectors. It is the long-term owner of a growing portfolio and provides direction, capital, standards, capabilities and a credible corporate identity across the group.

ELEMENT	STATEMENT
Core idea	Build strong businesses, connect them through shared strength, and create lasting value.
Purpose	To build businesses that create meaningful value for people, partners and communities.
Mission	To identify opportunities, build capable businesses, and provide the capital, technology, talent, systems and disciplined execution needed for them to grow sustainably.
Vision	To become a respected, enduring group of businesses known for building well, growing responsibly and creating lasting value.

Positioning

The brand sits between two extremes. It is more ambitious and entrepreneurial than a traditional holding company, and more structured and credible than a loose collection of start-ups.

BRAND PROMISE

CHITY GROUP builds with purpose, operates with discipline, and grows for the long term.

BRAND PILLARS AND PERSONALITY

Six pillars guide every decision

Strategy, support for operating businesses and public communication are tested against six pillars.

Build
We do not merely invest in ideas; we help turn opportunities into capable, operating businesses.

Excellence
We pursue strong standards in execution, customer experience, systems and governance.

Innovation
We use technology, new thinking and better processes to create practical advantages.

Responsible Growth
We favor sustainable growth, sound decisions and durable value over short-term appearances.

People & Trust
We build relationships through reliability, transparency and respect.

Long-Term Value
We make decisions with the future of the group, its businesses and communities in mind.

Personality

CHITY GROUP feels like a capable builder and steward of businesses: confident without being loud, modern without chasing trends, ambitious without being reckless, and corporate without feeling distant.

WE ARE	WE ARE NOT	WE ARE	WE ARE NOT
Confident	Arrogant	Ambitious	Flashy
Progressive	Trend-driven	Professional	Bureaucratic
Disciplined	Rigid	Human	Casual
Reliable	Predictable	Premium	Extravagant

VOICE AND MESSAGING

Clear, assured and grounded in evidence

Clear. Assured. Intelligent. Forward-looking. Human. Economically grounded.

Communication principles

- Say what matters. Avoid unnecessary corporate language.
- Lead with substance and evidence rather than exaggerated claims.
- Speak with confidence, but do not promise what cannot be delivered.
- Use plain language with broad audiences.
- Connect ambition to execution and value creation.
- Communicate as a builder and owner, not as a distant institution.

Terminology

USE	AVOID
diversified parent company; corporate group	holding company
builds, owns and grows	invests in (as the main verb)
CHITY GROUP	Chity Group; Chity

The one exception to the capitals is the endorsement “A Chity Group Company”.

Messaging hierarchy

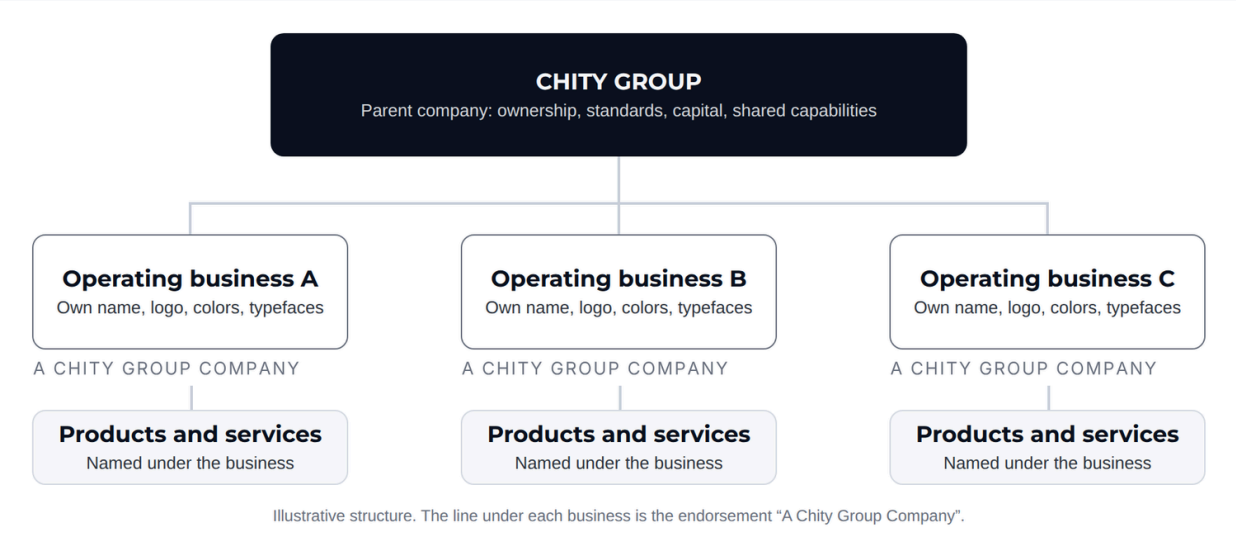

LEVEL	TEXT
One line	CHITY GROUP is a diversified parent company that builds and grows businesses.
Short	CHITY GROUP creates, owns and grows businesses across sectors, combining entrepreneurial ambition with disciplined execution and shared capabilities.
Boilerplate	CHITY GROUP is a diversified parent company that creates, owns and grows businesses across sectors. It combines entrepreneurial ambition with disciplined execution, shared capabilities and long-term thinking, providing the capital, technology, talent and systems its businesses need to grow sustainably. CHITY GROUP builds with purpose, operates with discipline, and grows for the long term.

Guardrails. The parent stays sector-neutral. No single business dominates its identity or language. Ambition is shown through evidence and execution, not hype. Luxury cues come from restraint, and technology is shown as capability, never as a gimmick.

BRAND ARCHITECTURE

One parent, independent businesses

CHITY GROUP uses an **endorsed architecture**. The parent is the corporate owner and steward. Operating businesses keep independent identities suited to their markets and are endorsed, where useful, by the descriptor “A Chity Group Company”.

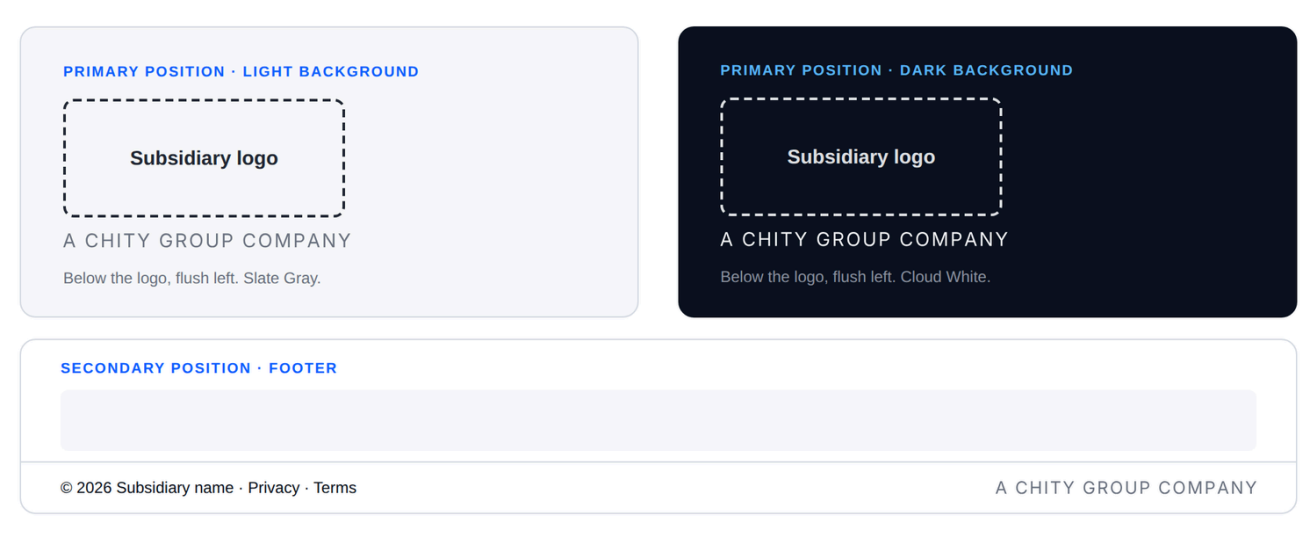

Illustrative structure. The line under each business is the endorsement “A Chity Group Company”.

Rules

- Operating businesses use independent names, logos, colors and typefaces.
- The word “Chity” is not part of a business name unless the Brand Owner approves an exception.
- The CHITY GROUP logo is never merged into a business’s logo.
- No single business may dominate the parent’s identity, imagery or language.

The endorsement line

- Inter Regular, capitals, +0.1 em tracking: A CHITY GROUP COMPANY.
- Cap height at most 25% of the height of the business’s primary logo; never smaller than 8 px or 6 pt.
- Beneath the logo, flush left, or in a footer corner.
- Slate Gray on light backgrounds; Cloud White on dark. Never in a business’s accent color.

THE LOGO

One logo, several forms

Choose the form by the space available and the background. **Primary** is the stacked logo; **Secondary** is the horizontal logo. Every form is supplied as SVG and PNG.

Primary logo, full color, for light backgrounds

Primary logo, full color, for dark backgrounds

Secondary logo with tagline

Secondary logo without tagline

Submark

One-color, Navy

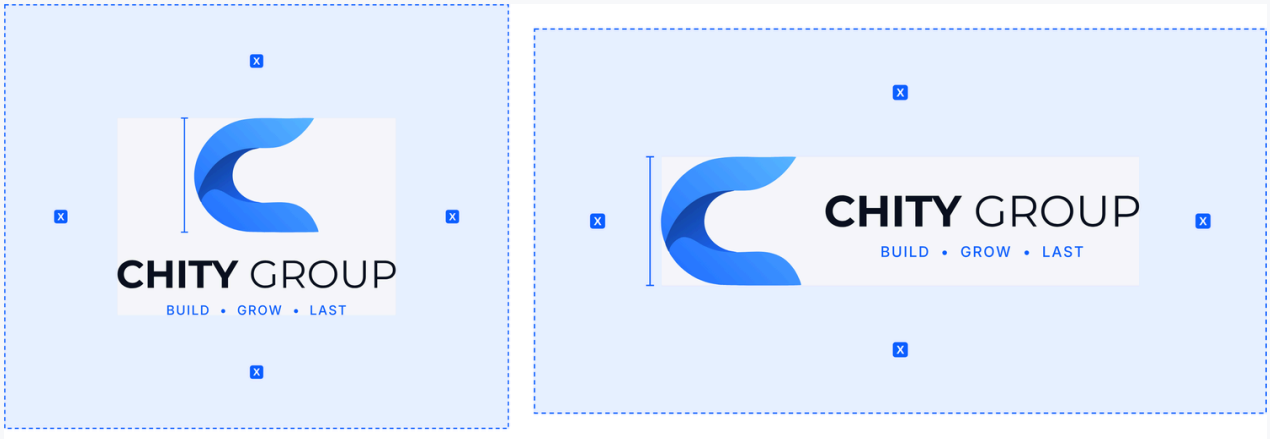

One-color, White

FORM	USE WHEN
Primary, with tagline	The default: covers, title slides, signage. At least 200 px or 50 mm wide.
Secondary, with or without tagline	Wide spaces: headers, footers, letterhead, signatures. With tagline at least 300 px or 75 mm; without, at least 140 px or 37 mm.
Submark, app icon, favicon	Avatars, icons and watermarks, where the full name is nearby or the brand is established.

THE LOGO

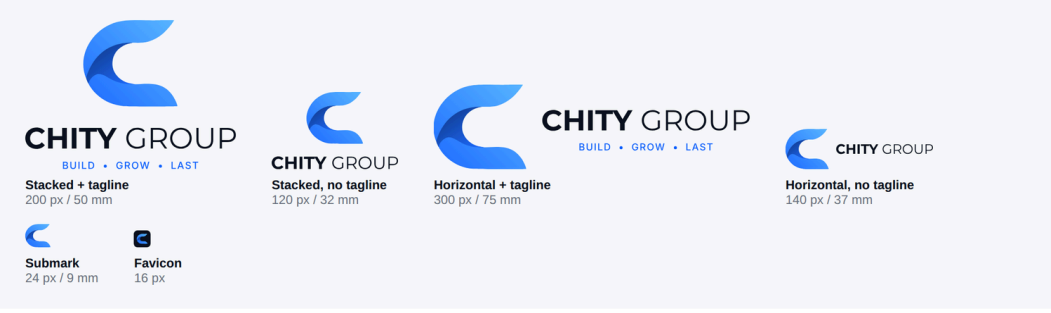

Clear space and minimum sizes

Keep a free margin of **X on all four sides** of every logo, where X is the full height of the C symbol in that logo. Nothing may enter this zone. Inside interfaces and email signatures the margin may reduce to 0.5 X.

Minimum sizes

The tagline sets the limit: below the sizes shown its capitals become too small, so use the version without the tagline.

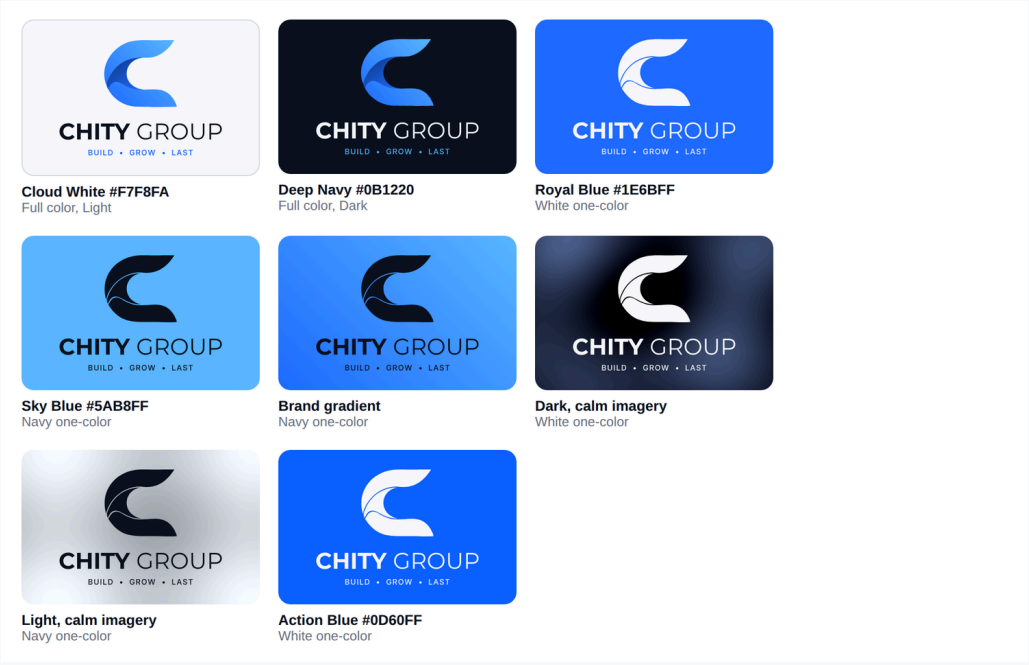

FORM	ON SCREEN	IN PRINT
Primary logo with tagline	200 px wide	50 mm
Primary logo, no tagline	120 px wide	32 mm
Secondary logo with tagline	300 px wide	75 mm
Secondary logo, no tagline	140 px wide	37 mm
Submark, full color	24 px wide	9 mm
Submark, one-color with fold line	120 px wide	30 mm

Below the minimums, and for stamps, embroidery or engraving, use the solid one-color submark.

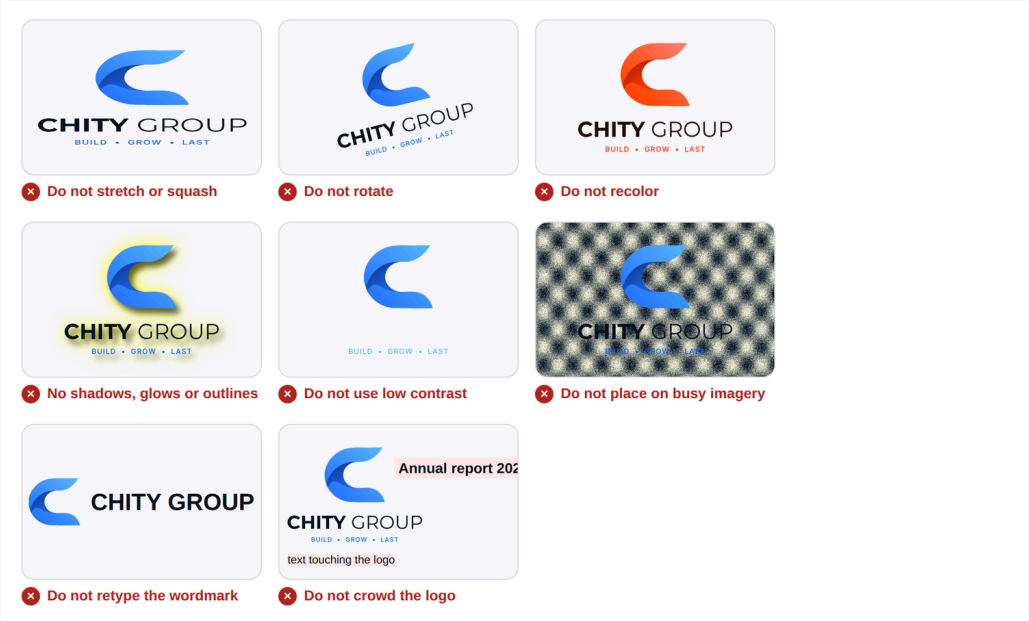

THE LOGO

Backgrounds and what to avoid

The full-color logo is used only on Cloud White and Deep Navy. On any other color or on imagery, use a one-color version: White on Royal Blue, Action Blue and dark imagery; Navy on Sky Blue, the brand gradient and light imagery.

What to avoid

Never stretch, rotate, recolor or add effects to the logo. Never retype the wordmark or place the tagline on a gradient. Never enter the clear space. Full details are in the Logo System.

COLOR

Deep navy, energized by luminous blues

A dark, disciplined foundation with two blues for energy and two neutrals for balance. Copy HEX codes exactly and never recolor the logo.

Core palette

Deep Navy
#0B1220
Canvas, text on light

Royal Blue
#1E6BFF
Accent, large text

Sky Blue
#5AB8FF
Accent, text on dark

Slate Gray
#6B7280
Secondary text

Cloud White
#F7F8FA
Light canvas

Supporting tones

Action Blue
#0D60FF
Buttons, links on light

Slate Light
#8D93A0
Text on dark

Fold Shade
#143E90
Logo mark only

Gradient
45°, Royal to Sky
Never behind text

Roles

ROLE	LIGHT MODE	DARK MODE
Page background	Cloud White	Deep Navy
Primary text	Deep Navy	Cloud White
Secondary text	Slate Gray	Slate Light
Links and small accents	Action Blue	Sky Blue
Button	Action Blue fill, Cloud White label	Sky Blue fill, Deep Navy label

About 60% Deep Navy or Cloud White, about 30% Slate tones, about 10% blue accents. No text on the gradient.

COLOR

Accessible by design, accurate in print

Contrast

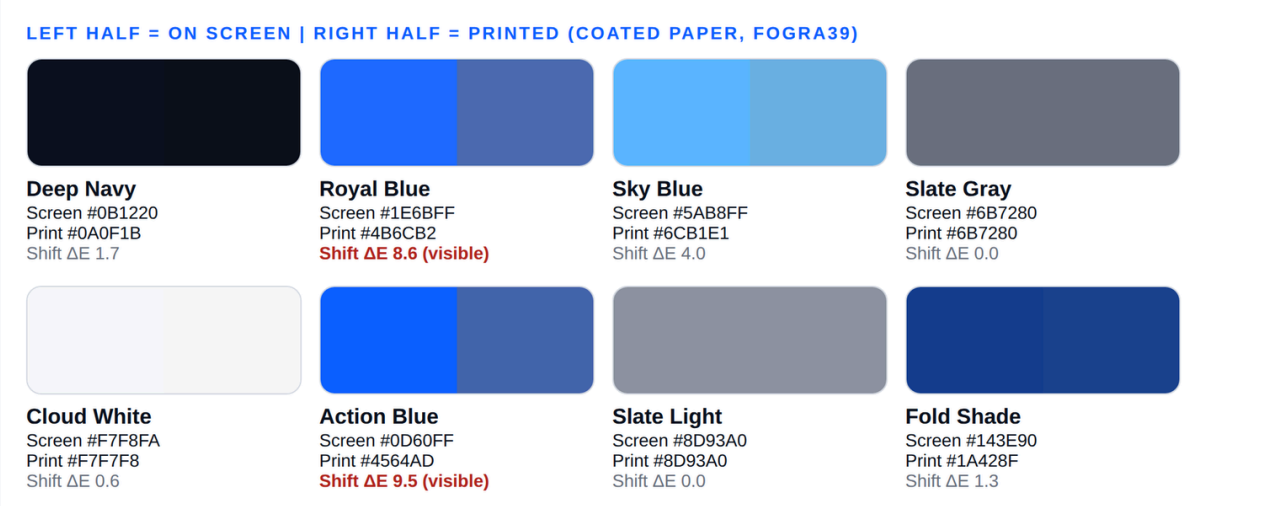

Ratios follow WCAG 2.1: 4.5:1 for normal text and 3:1 for large text and graphics.

PAIRING	RATIO	RESULT
Cloud White on Deep Navy	17.62:1	AAA
Sky Blue on Deep Navy	8.68:1	AAA
Slate Light on Deep Navy	6.07:1	AA
Deep Navy on Cloud White	17.62:1	AAA
Action Blue on Cloud White	4.78:1	AA
Slate Gray on Cloud White	4.55:1	AA, narrow
Royal Blue on Cloud White	4.29:1	Large text only
Sky Blue on Cloud White	2.03:1	Fail

Print and CMYK

CMYK values were computed with the FOGRA39 Coated profile and tested for how each color prints.

COLOR	CMYK
Deep Navy	88, 71, 38, 91
Royal Blue	77, 56, 0, 0
Sky Blue	58, 18, 0, 0
Slate Gray	57, 44, 33, 23
Cloud White	4, 3, 2, 0

The blues. Royal Blue and Action Blue cannot be fully reproduced in CMYK: on coated paper they print duller. For business cards, signage and packaging, print Royal Blue as a Pantone spot color or on an extended-gamut digital press, and always approve a printed proof.

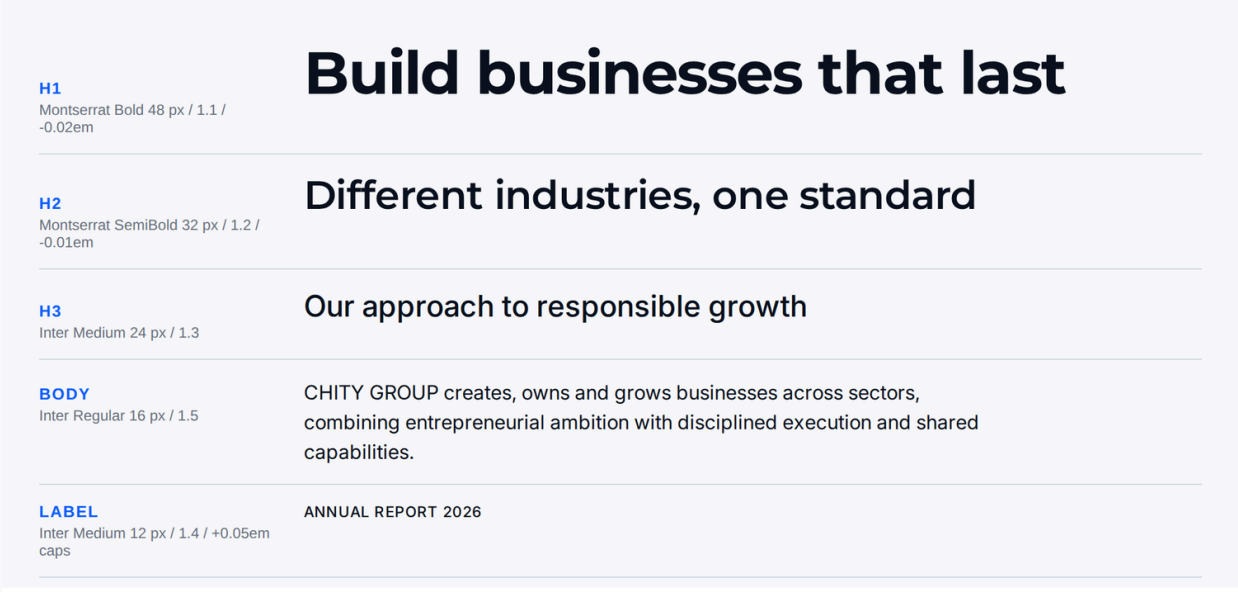

TYPOGRAPHY

Montserrat for headlines, Inter for everything else

Montserrat Bold and SemiBold set headlines. **Inter** Regular and Medium set body text, labels and interfaces. **Arial** is the fallback in email and restricted software.

The wordmark is drawn artwork: CHITY in Montserrat Bold, GROUP in Montserrat Regular. Never retype it.

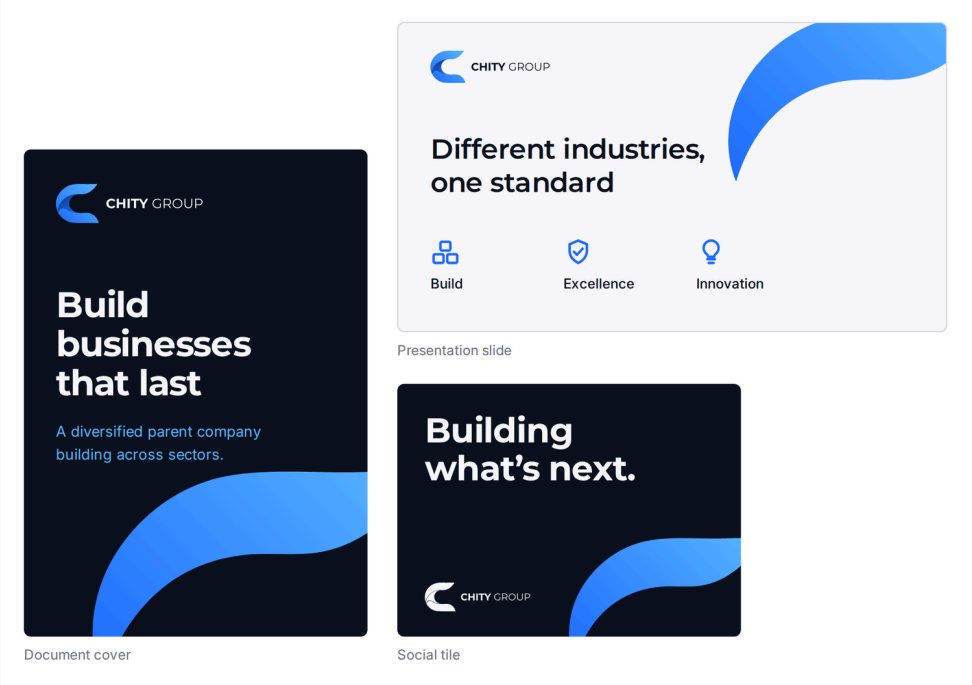

LEVEL	TYPEFACE	PRINT	WEB	LINE HEIGHT	TRACKING
H1 headline	Montserrat Bold	36-48 pt	48 px	1.1	-0.02em
H2 section	Montserrat SemiBold	24-32 pt	32 px	1.2	-0.01em
H3 subheader	Inter Medium	18-20 pt	24 px	1.3	Normal
Body	Inter Regular	10-12 pt	16 px	1.5	Normal
Label	Inter Medium, capitals	8-9 pt	12 px	1.4	+0.05em

Montserrat and Inter are licensed under the SIL Open Font License 1.1. Share the font files only together with their OFL.txt licenses.

GRAPHIC LANGUAGE

Movement, restraint and clarity

- **Fluid momentum.** Sweeping curves signal forward progress, taken from the C symbol.
- **Structural restraint.** Deep, disciplined canvases and ordered typography.
- **Luminous clarity.** Vibrant blue against dark corporate tones.
- **Grounded scale.** Imagery that keeps the group sector-neutral.

Document cover

Presentation slide

Social tile

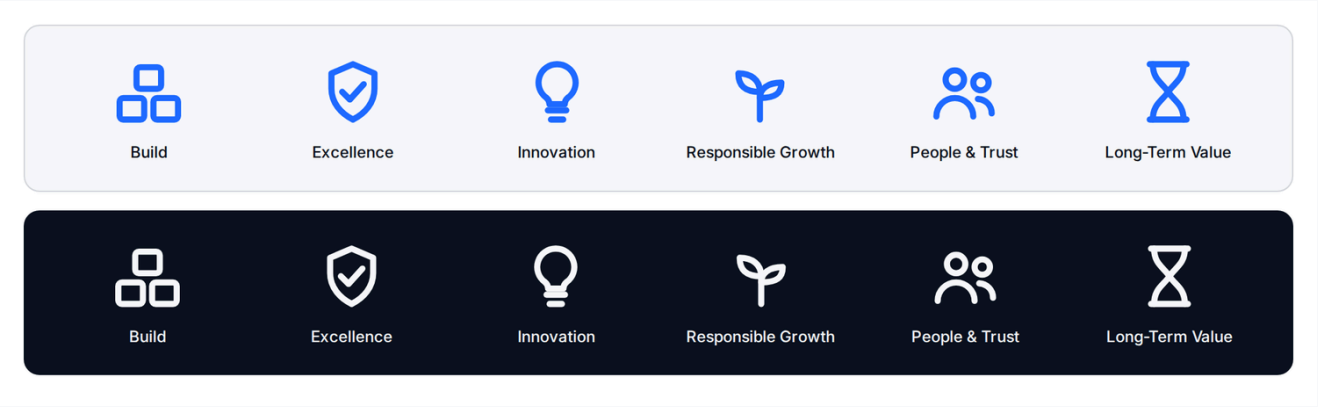

The brand curve

- One curve device per layout; never repeat, tile or stack.
- Use it large and let the layout edge crop it.
- Keep text and logos off the curve, with a clear gap of at least 24 px (6 mm).
- Gradient curve only on Deep Navy or Cloud White. Mirror it if needed; never rotate, stretch or recolor.

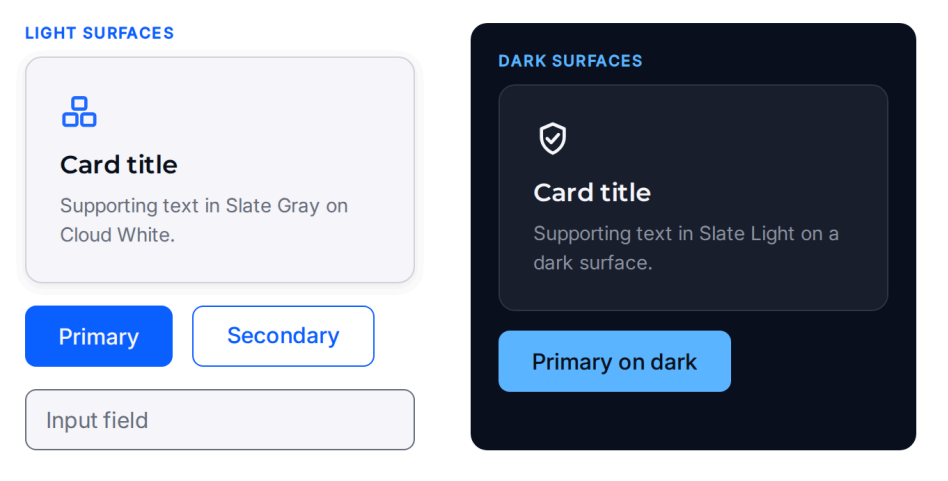

GRAPHIC LANGUAGE

Icons and components

Six linear icons express the pillars. They use a 24 px grid with a 2 px stroke and rounded ends, one color each, and are always paired with a label.

Components

ELEMENT	SPECIFICATION
Card	Radius 12 px, padding 24 px, 1 px border
Button	Height 44 px, radius 8 px, Inter Medium 16 px
Spacing scale	4, 8, 16, 24, 32, 48, 64, 96 px
Web grid	12 columns, content width 1200 px, gutters 24 px

Interface neutrals: border #D4D6DC, surface tint #EAF0FA (light); surface #19202D, border #313743 (dark).

IMAGERY

People, progress and substance

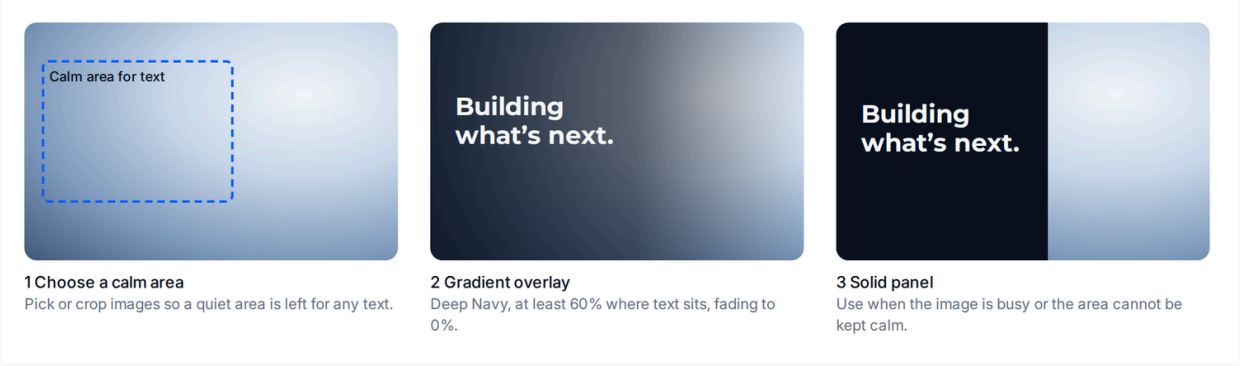

Imagery gives CHITY GROUP human scale and evidence. It shows real work and real places rather than decoration, and it keeps the parent brand sector-neutral.

FAMILY	SHOWS	DIRECTION
Structures	Architecture, glass, infrastructure, city detail	Use sparingly so the group does not read as property or construction.
People	Real people at work and in partnership	Candid, natural, diverse. No staged poses or forced handshakes.
Nature and detail	Leaves, water, materials, light	Supports responsible growth. Natural light, shallow depth.
Motion and abstract	Light trails, movement, the brand curve over calm imagery	For banners and backgrounds. Calm and uncluttered.

Style

- Natural, clean light; cool, navy-leaning shadows with accurate skin tones.
- Moderate contrast. No heavy filters, vignettes or color overlays.
- A clear subject with a calm area for text.
- Sets of four or more images use at least two families; none exceeds half of the set.

Text over images

1 Choose a calm area
Pick or crop images so a quiet area is left for any text.

2 Gradient overlay
Deep Navy, at least 60% where text sits, fading to 0%.

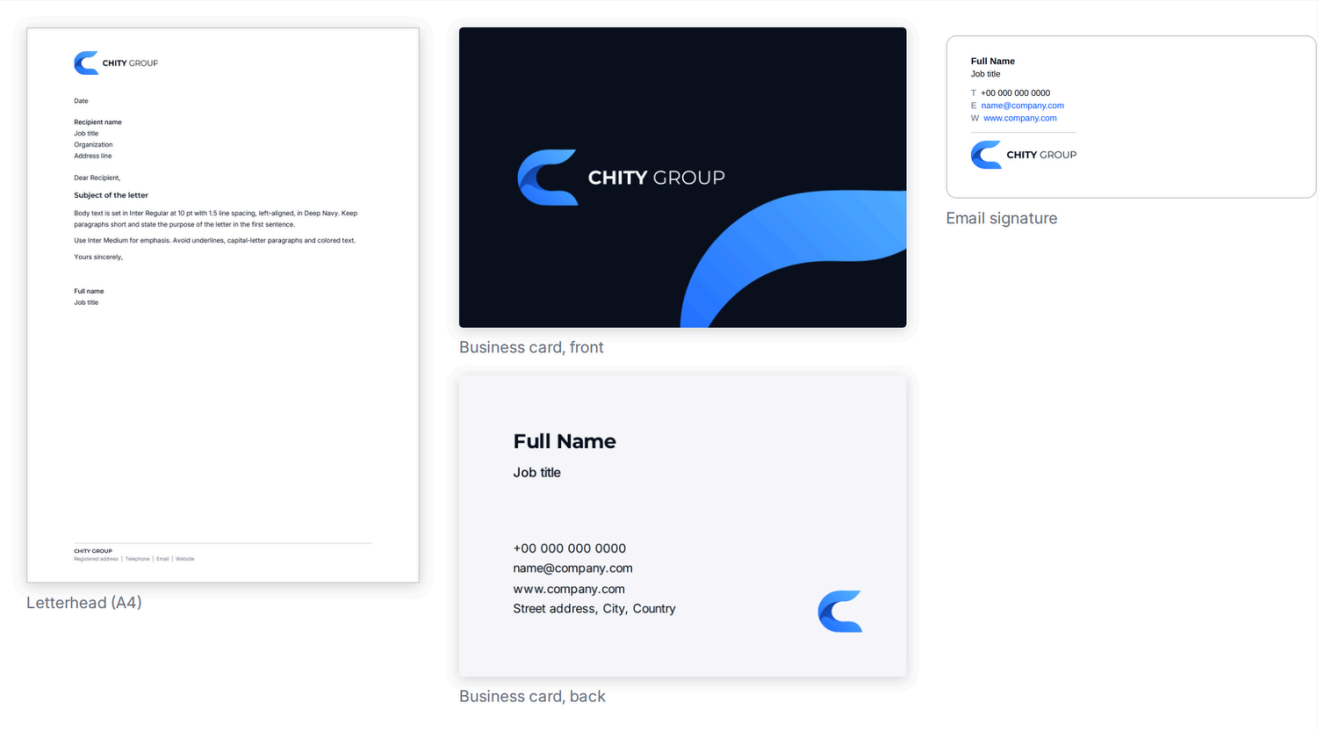

3 Solid panel
Use when the image is busy or the area cannot be kept calm.

A Deep Navy overlay of at least 60% keeps Cloud White text at 4.6:1 even over a pure white image. Use a solid panel when the image is busy. The panels are illustrations, not photographs.

APPLICATIONS

Stationery

Every application uses one logo, solid color behind text, Montserrat for headlines, Inter for everything else, and at most one brand curve. Ready-made templates carry these rules.

Letterhead (A4)

Business card, front

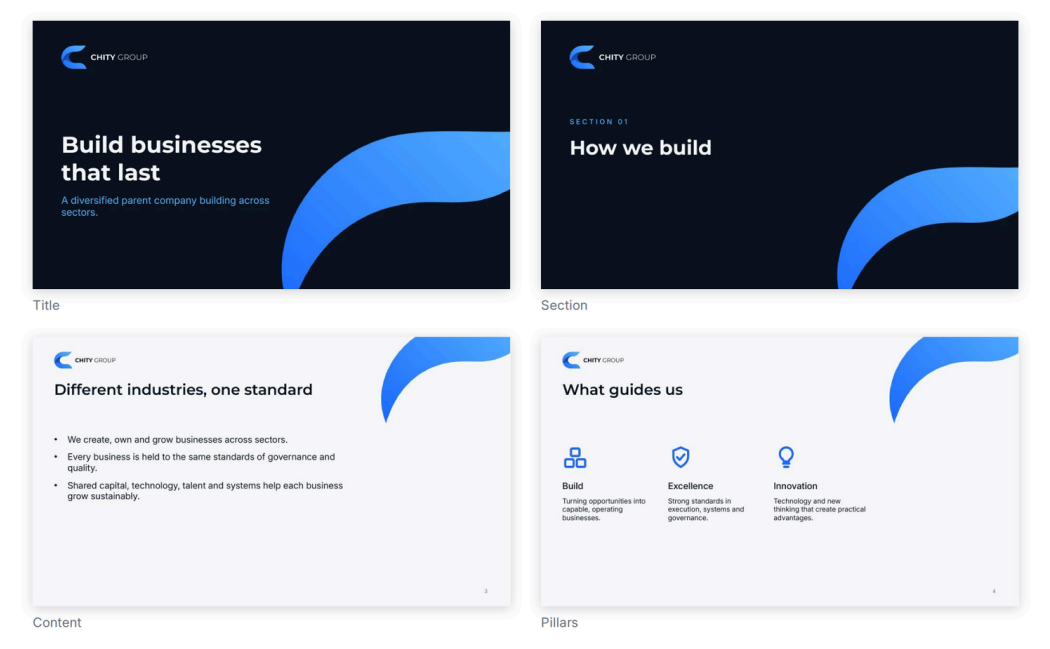

Email signature

Business card, back

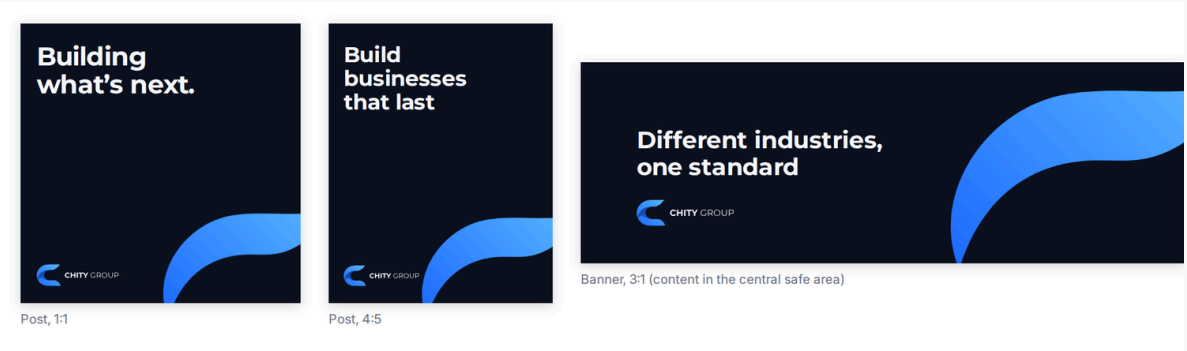

ITEM	SPECIFICATION
Business card	85 × 55 mm with 3 mm bleed. Front: Deep Navy, secondary logo, one curve. Back: Cloud White, name in Montserrat Bold 11.5 pt, details in Inter 7 pt.
Letterhead	A4. Secondary logo 45 mm wide at top left. Body in Inter 10 pt, 1.5 line spacing. Footer with hairline rule.
Email signature	Arial 10 pt. Secondary logo, 160 px wide on screen. One format for everyone, no extra graphics.

APPLICATIONS

Presentations, digital and social

- **Presentations.** Dark layouts open and close; light layouts carry the detail. Body text 18 pt or larger.
- **Websites.** Horizontal logo in the header (140 to 180 px). Action Blue buttons on light areas, Sky Blue on dark. Descriptive alternative text on every image.

- **Social media.** App icon as the profile picture. Deep Navy tiles with one curve and a Montserrat Bold headline of six words or fewer. Banners at 3:1 with all content in the central safe area.
- **Signage, vehicles, merchandise.** Vector artwork only, with the clear space intact and a proof before production.

USAGE AND GOVERNANCE

Using the brand well

Before you publish

- The logo comes from the supplied files, unaltered, in the right version for the background.
- Clear space and minimum sizes are respected.
- Only palette colors are used; no text sits on the gradient.
- Headlines are Montserrat; other text is Inter (Arial in email).
- Text contrast passes the color specifications.
- Images follow the imagery rules and have alternative text online.
- Claims are supported by evidence; the name is written CHITY GROUP.

Asset management

- Keep all brand assets in one controlled location, structured as the brand package.
- Name files CHITYGROUP_[Asset]_[Variant]_[Background]_[FORMAT].
- Keep only current files in use; archive superseded ones.
- Record new assets in the Asset Index.

Approvals

SITUATION	REQUIREMENT
Supplied templates and files used exactly as provided	No review needed
A new template, layout or format; external campaigns and launches	Brand Owner review before use
Any change to logo files, palette, fonts or guidelines	Brand Owner approval; changes made only by the Brand Owner
A new operating business or how it carries the endorsement	Brand Owner approval
Signage, vehicles and merchandise	Artwork review and a proof before production
Third-party use of the CHITY GROUP name or logo	Written permission from the Brand Owner

The Brand Owner is the person or team designated by group leadership to protect and approve the brand. Report incorrect or unauthorized use to the Brand Owner. The guidelines are reviewed at least once a year and whenever the group's structure, businesses or markets change.

CHITY GROUP

BUILD • GROW • LAST

All logo files, fonts, graphics, templates and documents referred to in this book are listed in the Asset Index. Use only the supplied files.
