CHITY GROUP

Brand Strategy

Strategic platform, audiences and verbal identity

1. Strategic platform

CHITY GROUP is a diversified parent company that creates, builds, owns, supports and grows businesses across sectors. It is the long-term owner of a growing portfolio and provides direction, capital, standards, capabilities and a credible corporate identity across the group.

ELEMENT	STATEMENT
Core idea	Build strong businesses, connect them through shared strength, and create lasting value.
Purpose	To build businesses that create meaningful value for people, partners and communities.
Mission	To identify opportunities, build capable businesses, and provide the capital, technology, talent, systems and disciplined execution needed for them to grow sustainably.

2. Positioning

CHITY GROUP is a diversified parent company that builds and grows businesses by combining entrepreneurial ambition with disciplined execution, shared capabilities and long-term thinking.

The brand sits between two extremes. It is more ambitious and entrepreneurial than a traditional holding company, and more structured and credible than a loose collection of start-ups.

3. Personality

CHITY GROUP feels like a capable builder and steward of businesses: confident without being loud, modern without chasing trends, ambitious without being reckless, and corporate without feeling distant.

WE ARE	WE ARE NOT	WE ARE	WE ARE NOT
Confident	Arrogant	Ambitious	Flashy
Progressive	Trend-driven	Professional	Bureaucratic
Disciplined	Rigid	Human	Casual
Reliable	Predictable	Premium	Extravagant

4. Value proposition

CHITY GROUP creates value by bringing together four capabilities that individual businesses may struggle to build alone.

CAPABILITY	WHAT IT PROVIDES
Capital and resource allocation	Resources placed behind opportunities with disciplined priorities.
Technology and innovation	Modern tools and systems that improve how businesses operate and compete.
Talent and leadership	Teams, leadership capacity and a culture of high standards.
Shared systems and strategic support	Governance, knowledge, infrastructure and group-level capabilities where they create leverage.

5. Brand pillars

Strategic decisions, support for operating businesses and public communication are tested against six pillars.

PILLAR	MEANING
Build	We do not merely invest in ideas; we help turn opportunities into capable, operating businesses.
Excellence	We pursue strong standards in execution, customer experience, systems and governance.
Innovation	We use technology, new thinking and better processes to create practical advantages.
Responsible Growth	We favor sustainable growth, sound decisions and durable value over short-term appearances.
People & Trust	We build relationships with customers, employees, partners and stakeholders through reliability, transparency and respect.
Long-Term Value	We make decisions with the future of the group, its businesses and the communities around them in mind.

6. Verbal identity

Voice

Clear. Assured. Intelligent. Forward-looking. Human. Economically grounded.

Communication principles

- Say what matters. Avoid unnecessary corporate language.
- Lead with substance and evidence rather than exaggerated claims.
- Speak with confidence, but do not promise what cannot be delivered.
- Use plain language with broad audiences.
- When discussing growth, connect ambition to execution and value creation.
- Communicate as a builder and owner, not as a distant institution.
